

How to Guide

Read with Victor Reader Stream

Using the Humanware Companion Software

To transfer books and other media to the **Victor Reader (VR) Stream**, Humanware provides the Humanware Companion. It's a Windows program that features a screen reader-accessible interface. You may use it to search for and transfer our books. You can download the [Humanware Companion](#) from the Humanware website.

Transferring Books without Companion Software

An SD card can be used to transfer Bookshare content to the VR Stream without using Companion Software. In order to transfer Bookshare content onto the VR Stream, the SD card must be available to the computer as a removable drive.

- 1) Format the SD Card in the VR Stream.
 - a. Press 7 (the Menu key) repeatedly until the VR Stream announces "Format SD card."
 - b. Press the pound key (#) to confirm
 - i. Formatting the SD card in the VR Stream is preferred because it creates the required folders. When properly formatted the SD card will contain several folders each beginning with "\$VR".
 - ii. If the format feature is not available on your VR Stream, consider updating to the latest firmware.
- 2) Insert the SD card into an SD card reader connected to the computer or connect the VR Stream (with the SD card inserted) to the computer with the supplied USB cable.
- 3) Once the content of the SD card is visible in a folder window, transfer content to the SD card by copying the files from their original location to the proper SD card folder.
 - a. DAISY content belongs in the \$VRDTB folder.
 - i. Each DAISY book, magazine, or newspaper should be saved in its own sub folder. Every DAISY book, newspaper or periodical, is comprised of at least eight files; the sub folders must contain all these files. Each sub folder appears as a separate book on the Digital Talking Book bookshelf.
 - b. MP3 audio books should be transferred to the \$VROTHERBOOKS folder

Victor Reader Stream 2nd Generation Connecting to a Wireless Network
